# Recipient Survey

## Background

### Introduction

Government Consulting Services (Public Works & Government Services) has been engaged by the Public Health Agency of Canada (PHAC) to conduct an evaluation of the Public Health Agency of Canada's Fetal Alcohol Spectrum Disorder (FASD) Initiative. The initiative was implemented in 1999, and this evaluation covers the period from 04/05 to 08/09. The FASD Initiative has a national and regional scope. It is a \$5M/year Initiative of which PHAC funds \$3.3 million per year and First Nations and Inuit Health Branch (FNIHB) funds \$1.7 million. This evaluation covers only PHAC funded activities.

You have been selected as a key informant because of your knowledge and familiarity with this Initiative, its activities, and accomplishments. The evaluation study will play an important role in the future structure and operation of the PHAC FASD Initiative. Your participation is important and will have significant contribution to the study and Initiative.
