

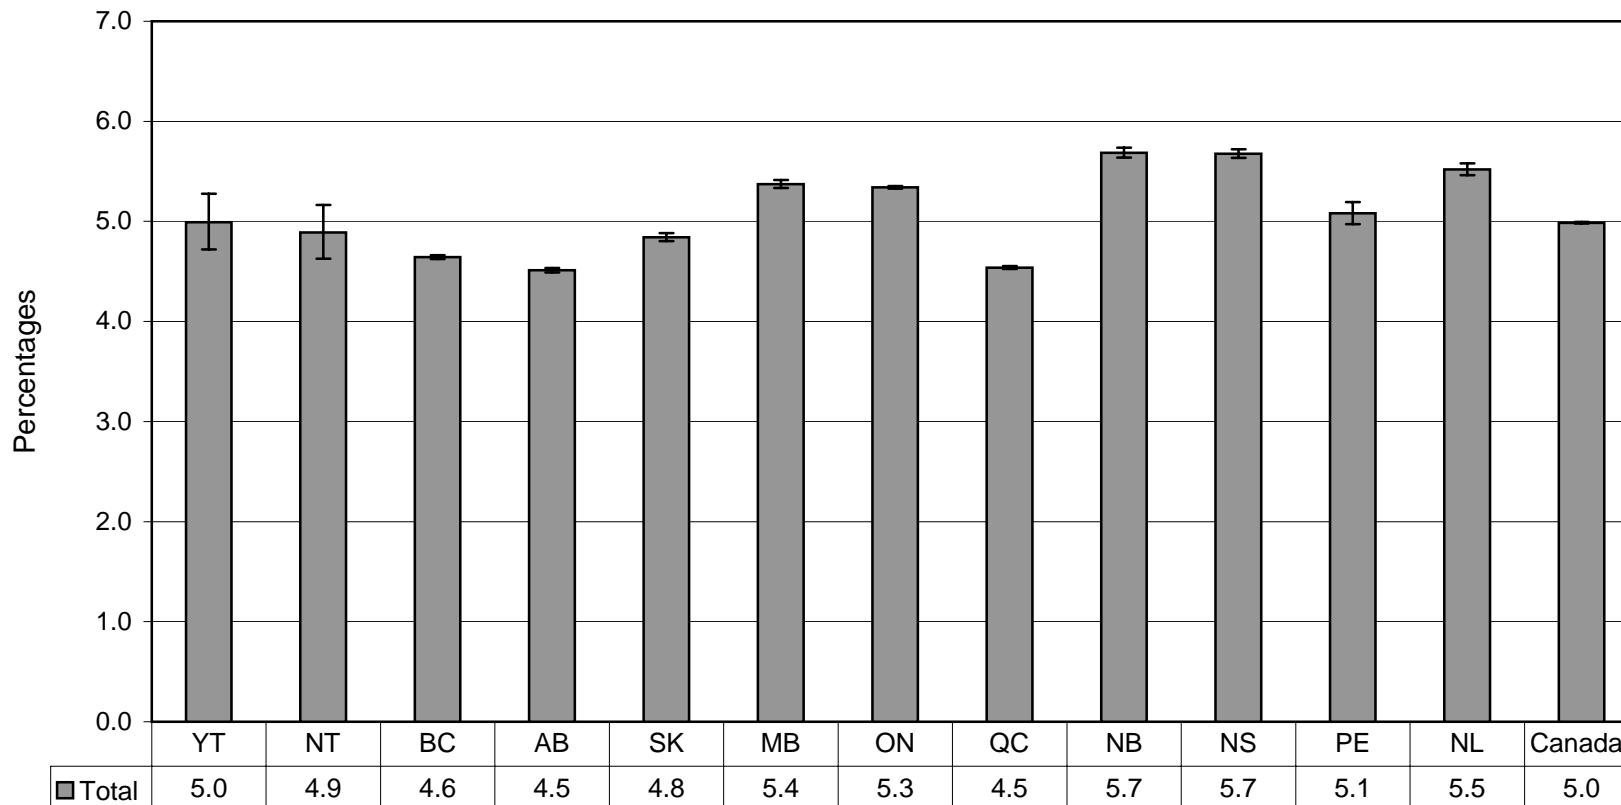

Figure 2. Age-Standardized Prevalence Percentages* of Diagnosed Diabetes Among People Aged 1 Year and Older, by Province and Territory, Canada*, 2005-2006

Source: Public Health Agency of Canada, using NDSS data files contributed by provinces and territories, as of September, 2008

*Data for Nunavut were unavailable.

‡The 95% Confidence Interval shows an estimated range of values which is likely to include the true prevalence rate 19 times out of 20.

*Age-standardized to 1991 Canadian population
